Making of Endhiran discussed
May 18, 2011

endhiran-18-05-11

Home > More news

Endhiran was the talk of the town for its amazing visual effects. Many raved that it is the first time that an Indian film has come out with such amazing computer graphics. This exceptional VFX of Endhiran was taken up for discussion and a meeting took place at the Raja Annamalai Mandram recently. Srinivas Mohan from Indian Artist presided over this event. Arena Multimedia and Animation Focuz had jointly arranged for this seminar.

Those present at this event were Stalin from Vensat Studios, Hima kumar from Prasad EFX, Srinivasan from Pixion and Deepak Nair from Mayan Creatives. All four of them played an important role in the shaping up of Endhiran.

The aim of this seminar was to enthuse young talents to take up animation as a career and turn into VFX specialists.
